# Art Enhanced Curriculum

Arts are used as a device or strategy to support other standards driven content areas.

Teachers need little or no training in an art form.

Often mistaken for arts integrated curriculum.

# Arts Integrated Curriculum

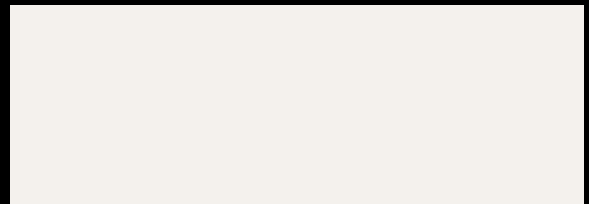

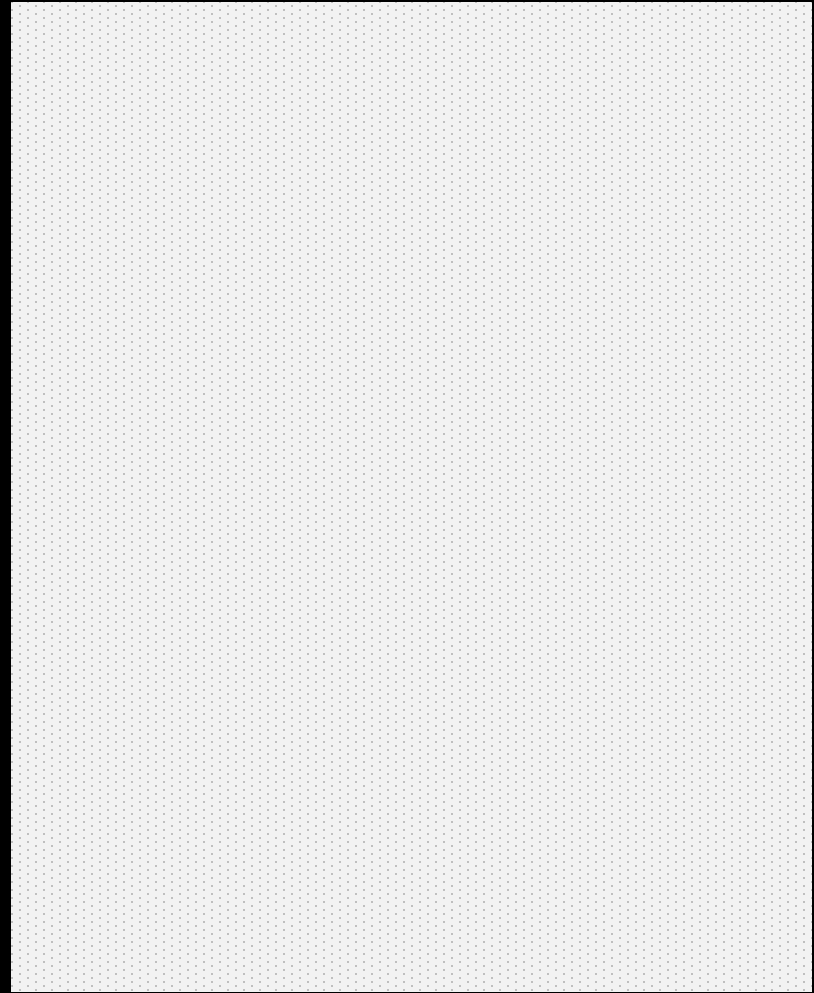

Arts are an approach to teaching and a vehicle for learning.

Students meet dual learning objectives when they engage in the creative process to explore connections between an art form and another subject.

A collaborative teaching process requiring content experts in both the art form and the academic content area.
